

We see your potential in the figures.

«We see your potential in the figures»

It takes experience to develop a good eye for figures and we've got it. Honold Treuhand AG was founded in 1949 by Anton Honold. Since then, we have been advising small and medium-sized businesses, private individuals and families, as well as larger groups of companies, as a renowned auditing and fiduciary office.

Honold Treuhand AG has been a member of the Swiss Institute of Certified Accountants and Tax Experts (Expert Suisse) for decades, which is proof of our experience. Internationally, we have had links with the jhi Association for over a decade, as a representative of German-speaking Switzerland. We also work closely together with selected experts in Switzerland in specific, interdisciplinary fields. We are well-connected, nationally and internationally.

We recognise your potential in your figures, which benefits you, especially in tax and business consultancy. You can also count on us when it comes to auditing and other fiduciary activities. You can rely on our experience, reliability and integrity. It is important to us that you always have the same contact person, where possible, for years.

## Services: Auditing

Auditing requires a lot of experience, because figures often have to be interpreted under immense time-pressure, without affecting quality. Auditing demands on-going further training of all staff, because legal conditions are always changing. This ensures that all of the staff are always familiar with the legal details. We are registered as audit experts with the Federal Audit Oversight Authority, FAOA, under registration number 500 685. An added bonus is that your contact person is always your mandate manager, who will also be present at the audit.

## Areas of activity

- General and limited audits, investigation of groups of companies, small and medium-sized businesses, occupational pension schemes and foundations
- Business valuations, financial due diligence
- Court expertise, arbitration
- Consultation on recognised accounting standards (IFRS, Swiss GAAP FER)
- Investigation and consultation for restructuring
- Investigation of internal processes (ICS)
- Special investigations (increases and decreases in capital)
- Investigations of adherence to the law on money laundering (accredited with most self regulation organisations (SROs) as Polyreg, SAAM and TreuhandSuisse)

### Services: Tax Consultancy

Tax optimisation is about getting the best from your figures and working together to successfully shape the future. We have open and constructive discussions with you to this end.

Because we have been working in this field for many years, we are familiar with the legal requirements and many options for optimisation. We have close links to tax offices. We are part of an international network of tax experts and are therefore also a competent partner for cross-border taxation matters.

### Areas of activity

- Tax planning and tax-optimised accounting
- Tax returns for businesses and private individuals
- Representation before taxation authorities (for assessments, discussions and appeals)
- Succession planning and inheritance
- Value-added tax representation and advice

## Services: Business Consultancy

Company valuations, establishments, take-overs and restorations to profitability require quick and completely reliable comprehension of complex, internal facts and figures, because analysis often has to be done under immense time pressure. You can rely on us to provide you with competent consultation and to make the most of your potential. Even when there are several partners around the table, we are concerned with keeping communication open, fair and goal and solution-orientated.

### Areas of activity

- Consultation on establishments, transformations, restoration to profit, liquidations, mergers  
increases and decreases in capital and purchase and sale of businesses
- Budgeting, financial and liquidity planning
- Drawing up business plans
- Management
- Domiciliation

#### Services: Fiduciary Activities

We are happy to help with setting up and managing accounts. Our professional staff are knowledgeable and experienced and use the latest, relevant accounting software.

#### Areas of activity

- Financial accountancy (various accounting systems)
- Conclusion of business transactions
- Payroll accounting and personnel administration
- Cost accounting
- Representation (interim) in accounting

We work closely together with Staubli & Partner AG for these activities.
